Tournament Tips

1. Early Season- In your tournament letter remind coaches to enter players on website. This will help with new coaches who have not used it before.

2. Assign cards the day before the tournament so you can print scorecards from the website and not have to hand write all the cards.
   a. The website prints 1 scorecard per page,
   b. Use Landscape View
   c. Use zoom setting to make them the size you want
   d. Print on plain paper first, then copy to heavier card stock for kids.
   e. You can easily copy 3 or 4 cards for each hole so each player has a card.
   f. Then you can put a scorecard for each player in the team packets.

3. Use your phone or ipad to take pictures of cards during the tournament and enter them throughout the day. This will help identify any problems you may have, such as missing a player, and will speed up score entry at the end of the tournament.

4. Have other coaches bring laptops and help enter scores at the end of the tournament. They will just need to login as the coach that created the tournament.

5. Print off the tournament QR code and hang it up by the clubhouse so parents, coaches and players can scan it and go directly to that page.

6. Take a picture of the medal winners after the tournament and upload it to the tournament page.

7. After the tournament have the players fill out the stats page and then have them enter their stats.
